

Euphoria - Checklist 6

When markets levitate logic evaporates. You may be in euphoria if:

- [] Dinner-party guests start sharing 'guaranteed winners.'**
- [] Uber drivers give you stock tips.**
- [] People who have never traded suddenly 'love charts.'**
- [] Analysts declare 'we've entered a new paradigm.'**
- [] Headlines use 'skyrockets', 'soars', or 'unstoppable'.**
- [] Your neighbor's teenager has a crypto portfolio bigger than your trading account.**
- [] Your broker's website keeps crashing - from buyers, not sellers.**
- [] Adverts appear for 'guaranteed trading systems'.**
- [] 'Educational courses' multiply like fruit flies.**
- [] Human-interest stories - shelf-stackers buying waterfront mansions.**
- [] No-one at work talks about anything except stocks.**
- [] You catch yourself thinking: 'This time it really might be different...'**

Yes? Then you should:

- [] Pay attention, watch for the ITM OUT sign**
- [] Remember: euphoria is the last stage before the fall.**
